MEMORANDUM

To: Local School District MEGS Authorized Officials and Consolidated Application Main Contacts

From: Michael Radke, Director
Office of Field Services 

Subject: Review of Updated Census Data for Allocating School Year 2013-14 Title I, Part A Funds

Please find attached updated 2011 population and poverty estimates for the local educational agencies (LEAs) in the state of Michigan. The Census Bureau released this information to enable you to review the data for accuracy. This information will be used to calculate school year (SY) 2013-14 Title I, Part A allocations.

Review of estimated census data: These estimates are based on a statistical model that uses decennial data, household survey data, administrative records data, and population estimates. The Census Bureau has established **March 11, 2013**, as the deadline to review this data and to submit corrections in cases where non-statistical errors can be documented. Generally included in these Census Bureau errors are (1) processing the data used to run its estimation models and (2) processing information that defines a school district's geographic boundaries.

Note that the list of school districts used for the 2011 estimates is based on SY 2011-12 school district boundary information. Also, the school districts on this list include only "regular" school districts that have geographic boundaries. The list excludes, for example, special school districts, such as charter schools, that a state recognizes as LEAs, as well as regional vocational education districts. Your school district boundary map can be viewed at:

All changes submitted to the Center for Geographic Information may not be reflected in the available maps. Any questions about the school district boundary maps should be directed to Everett Root at roote@michigan.gov.
